GUNNI & TRENTINO

GUNNI & TRENTINO

SINCE 1970

With a history spanning more than 50 years, Gunni & Trentino has established itself as a national and international benchmark in architecture and interior design. This leadership is built on a comprehensive approach that brings together resources, talent, and passion to transform each project into a unique experience.

Five inspirational showrooms and two international offices bring together a young, dynamic, passionate, expert, and multicultural team of more than 300 professionals, including architects, interior designers, technical designers, and stylists, who guide and support each client throughout the entire process.

Timeless, elegant, and of exceptional quality, with styles that move between tradition and avant garde, every project is developed on a bespoke basis, in collaboration with leading brands, including our own Gunni & Trentino label. Each design reflects a commitment to innovation, sustainability, and exclusive service, transforming our clients' everyday lives by creating spaces that inspire and move them.

GUNNI & TRENTINO

AMARIS - 17 VILLAS ESTEPONA

From GTH by Gunni & Trentino, we present a broader vision of the kitchen concept, transforming the space into a true gastronomic experience.

The proposal centres on a kitchen defined by clean lines, smooth cabinetry and doors, where elegance and functionality shape a contemporary design aesthetic. A space conceived with a careful balance of colour, visual appeal and harmonious composition.

Kitchens designed as functional working areas, enriched with details that bring distinction and originality to the overall design.

"A kitchen infused with imagination and practicality"

GUNNI & TRENTINO

GTH Cabinetry Features

Design | Kitchen cabinet doors in high pressure laminate with a soft touch finish. Base and tall units in Cachemira matte finish 710, with wall units and island units in wood effect laminate, Nocedo 15 SD. Opening system with aluminium gola handles, lacquered in Cachemira and wood effect.

Cabinet Structure | Manufactured from 19 mm double faced laminated board with ABS edging. Back panel in the same material, 9 mm thick, double sided. The sides are fitted with multiple pre drilled holes, protected with caps, allowing shelves to be positioned at different heights. Shelves are secured using cam fittings. All shelves include concealed supports, offering high load resistance.

Hinges | Stainless steel clip on hinges with high durability. Featuring self closing action in the final movement and three dimensional adjustment (width, height and depth). All hinges include integrated soft close.

Legs and Plinths | Legs fixed to the underside of the unit with screws, supported at the base and sides. Floor support piece with adjustable foot and plinth fixing clips to attach the plinth by pressure fitting. Aluminium plinth lacquered in Cachemira door colour and wood effect laminate.

Storage | Drawers and deep drawers feature full extension metal runners with a soft closing return system that cushions closure and reduces noise, while ensuring full stability. Constructed with lacquered metal sides coated with anti corrosion paint. Front panels attach via a clip system, allowing removal without tools.

Accessories | Includes waste bin, ABS cutlery tray, mats and lighting beneath wall units.

Worktop | 12 mm thick worktop in Laminam Fokos Terra finish.
